TURNING ON THE LIGHT.

In regard to the article by the Commissioners published in last week's paper, we will say the matter was dropped, so far as we were concerned, but they have opened the wound afresh and we will have to let

We have not fallen into any error for after Mr. Welborn explained the facts we dropped the matter after publishing the explanation, and on the other hand we published Mr Talley's version of the affair, and thought he was right, and now we know he was, for he refused to sign

They have made their excuse; how well it sets with the taxpayers of Pickens county, we leave our readers to judge; they have probably heard the sentiment of some of the voters strongly expressed already.

In regard to the pier at the Birch' ford bridge: Commissioner Talley says it was just as he said; and Supervisor Stephens, in our presence, and the presence of others, admitted to Mr. Talley that he (Stephens) and McAlister did receive the pier, which was afterwards rejected by Messrs. Welborn and Talley. Now, who has fallen into error here? Messrs. Stephens, Talley or us? We leave it for our readers to judge.

We had thought to leave our Com missioners alone and let the matter drop, but they call on specifications and we must say that we can of agreement and specifications" crawmoy they cannot build from now till doom's day.

They say they do not object to any or all of their official acts being made public; we will say we do not mind speak and they do not; for we have been offered a consideration to keep our mouth shut and they couldn't

Mr. Talley, who is legally one of the Commissioners is not recognized, at all, in any of the proceedings and we want to know why it is. Why is it that Messrs. Stephens and Welborn will agree on a certain thing and to cast the deciding vote, in place of Mr. Talley? Why not give him a voice in the meeting? He is a regularly elected Commissioner, and draws the meeting? There is a good deal of kicking by the people, that the Commissioners of Pickens county have been appointing to have such guardian ad litem to represent you in this action within twenty (20) days after service of this summons upon you, the plaintiff will apply to the court to have such guardian ad litem to represent you in this action within twenty (20) days after service of this summons upon you, the plaintiff will apply to the court to have such guardian ad litem to represent you in this action within twenty (20) days after service of this summons upon you, the plaintiff will apply to the court to have such guardian ad litem to represent you in this action within twenty (20) days after service of this summons upon you, the plaintiff will apply to the court to have such guardian ad litem to represent you in this action within twenty (20) days after service of this summons upon you, the plaintiff will apply to the court to have such guardian ad litem to represent you in this action within twenty (20).

FORGED ORDERS ON PENSION FUND.

"Mrs. Susan Holcombe, a peusioner, informs us that some one forged an order from her to the clerk of court, drew her pension money, and we suppose, skipped out. She gives the name of the person who presented the order and drew the money as J. J. Hughes. This may be a ficticious name used by the forger to shield formed that this is not the first time that pension money has been drawn union of its choice: on forged orders and the old pensioners defrauded out of their money. The machinery of the law should be put in motion behind these rascals and not stopped until they are caught and severely punished for their ducted by Rev. J. W. Sheriff. will look into these matters.'

The above appears in the Easley Progress of issue May 20, 1903, We do not know Mrs. Susan Holcombe, and the pension roll in the hands of Cierk of Court, A. J. Boggs, does not show the name of any such pensioner. Clerk Boggs dispenses these pension ble for our thoughts as if we express funds, and no breath of censure can them in words or deeds? This bald statement charging a man with forgery and that upon the statement of an individual, herself a mere fiction, so far as the purposes of this case are concerned, is an encroachment upon the private rights of a citizen and an utter disregard of sacredness of private character.

It is more. A. J. Boggs, as clerk of court, and the legitimate custodian of this pension money is made to ap. pear as dealing out this precious fund without regard for the requirements of the law governing the same, and altogether unmindful of the ordinary care that a public officer should exer-

This flaringly headed article of our contemporary is not dignified with the least color of excuse—it can't be tempered in speaking of it by the mild name of insinuation. It is an open charge of forgery, and means that the Easley Progress is showing to the reading public a total disregard of the feelings of a supposedly reputable citizen as well as the private character of one of the most competent and conscientious officials in the service of Pickens county.

THE "MORTGAGE LIFTER."

Some of the Good Points of the Hog. the Farmer's Friend. Diversified farming is real farming

and from experience is determined the most profitable farming. A man can engage in cattle raising on a ranch and is thus only a ranchman, or he can have large flocks or herds of sheep and is a herdsman, but it is the general farmer, the diversified farmer, that engages in hog raising. The hog is one of the important links or cogs in the wheel of farm operations. To a certain extent the hog is an economic department. He converts the byproduct that might otherwise be wholly or partly lost into merchantable pork. He gleans in the grainfields and is an important feature to the dairy. He is the farmer's money maker and the farmer's mortgage lifter. So true is this that it has come to be a saying in speaking of hogs as "mortgage lifters," declares the American Swineherd.

No other animal can turn out so many pounds of meat or grain from the quantity of grain fed him as can the hog. He is a machine to convert feed into a merchantable production which is unequaled by any other animal. The improved hog can be converted into cash as quickly as a crop of

This, therefore, makes it easy for the grain farmers of the northwest to change from exclusive grain growing into a grain and stock raiser. No other animal can be as comfortably housed at so little expense as hogs. Cattle and horses require large barns that are costly and expensive in comparison with the quarters that can be arranged to protect the hogs in comfort from the weather. They are a quick asset on the farm and can be converted into money about as speedily as a government bond any day of

The meat of the hog that is fed on the grains of the farm or grasses or fruit is as healthful and wholesome as any meat that is produced.

the year.

The hog is justly, therefore, the farmer's friend, paymaster and "mortgage lifter." It is from the sale of hogs that the debts are paid, that the improvements are made on the farm, that the children are schooled, carriages bought and that the farmers have become rich from producing. The hog is an important factor, yet as a general thing he gets less care than any other animal upon the farm. While there is no other upon the farm. While there is no other animal in which care will pay so well as the hog, the farmers should give more thought to his comfort, to his breeding, to his feeding and to his

In this day and age of progression which has reached the farm the competent and enterprising farmer will consider it a great opportunity to have the privilege of subscribing for a paper devoted exclusively to the farmer's interests in the hog.

Notice of Election. There will be an election held at the Calhoun school house in school district No. 8, on May 30th, to vote on a special levy of two mills to supplement the school tax of said district. The Board of Trustees will act rules and regulations laid down in the school law.

BLACK-DRAUGHT THE ORIGINAL LIVER MEDICINE

A sallow complexion, dizziness, biliousness and a coated tongue are common indications of liver and kidney diseases. Stomach and bowel troubles, severe as they are, give immediate warning by pain, but liver and kidney troubles, though less painful at the start, are much harder to cure. Thedford's Black-Draught never fails to benefit diseased fiver and weakened kidnevs. It stirs up the torpid liver to throw off the germs of fever and ague. It is a certain preventive ague. It is a certain preventive of cholera and Bright's disease of the kidneys. With kidneys reinforced by Thedford's Rlack-Draught thousands of persons have dwelt immune in the midst of yellow fever. Many families live in perfect health and have no other doctor, then Thedford's Blackloctor than Thedford's Black-Draught. It is always on hand for many expensive calls of a doctor.

Mullins, S. C., March 10, 1901 have used Thedford's Black-Draught for three years and I have not had to go to a doctor since I have been taking It It is the best medicine for me that is on the market for liver and kidney troubles and dyspepsia and other Weak?

"I suffered terribly and was extremely weak for 12 years. The doctors said my blood was all turning to water. At last I tried Aver's Sarsaparilla, and was soon feeling all right again."

Mrs. J. W. Fiala, Hadlyme, Ct.

No matter how long you have been ill, nor how poorly you may be today, Aver's Sarsaparilla is the best medicine you can take for purifying and enriching the blood.

Don't doubt it, put your whole trust in it, throw away everything else. \$1.00 a bottle. All druggists.

Ask your doctor what he thinks of Ayer's arsaparilla. He knowsall about this grand id family medicine. Follow his advice and Sarsaparilla. Resold family medicine. Follow has sold family medicine. Follow has been we will be satisfied.
